Maru-Post Red

3.2021

City of round postboxes Kodaira

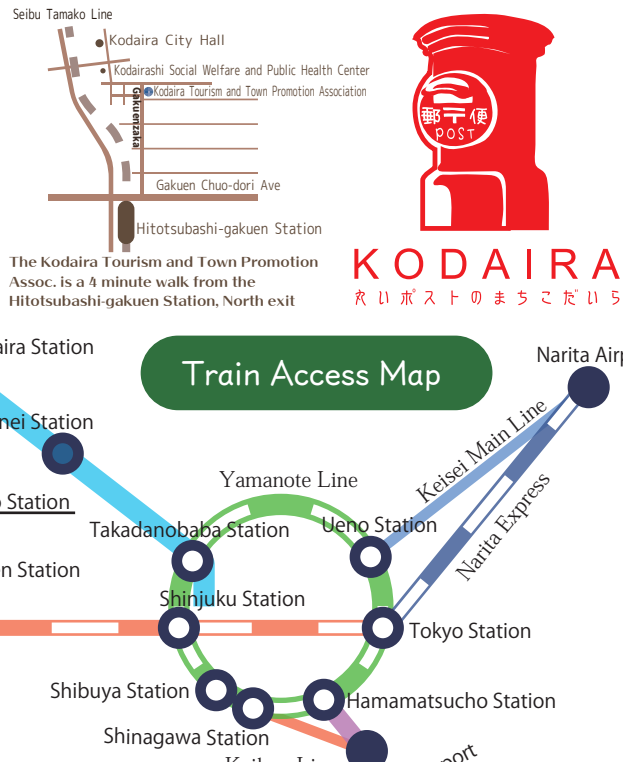

Starting in 1949 after WWII ended and the nation's distribution networks began to stabilize, round post boxes, officially known as “郵便差出箱 1 号” (Mail Box No. 1), were established as the nation's new, steel post boxes.

Since then, the number of round post boxes around the country have gradually decreased. However, there are still 37* of them in Kodaira as of 2021, which is higher than all other Tokyo municipalities.

Only 5 remain in the 23 wards.

To promote interest in round post boxes, Kodaira has been implementing various projects such as constructing Japan's tallest round post box (2.8 meters tall) and designing round post box shaped products.

32 round post boxes are still in service (30 owned by the post office, 2 privately owned) and 5 are no longer in service.
